

EARNING MULTIPLE GRADUATE DEGREES OR CREDENTIALS

Credit earned in one post-baccalaureate program at Aurora University may be applied toward the requirements of a second program at the option of that program. In those cases, where application of this policy results in a student meeting all specific coursework requirements of a program without having completed the total number of credits required for completion, the graduate program faculty shall determine additional coursework to be completed by the student in order to fulfill the total credit hours required for the program.
