

THEATRE (BA)

Bachelor of Arts

It is the belief of AU theatre faculty that the best theatre artists develop through intensive training in a specialty combined with knowledge in all areas of theatre. In the core theatre classes, students will explore theatre history, performance elements, and literature. In professional quality productions and in concentration-specific classes, students will learn and develop the skills needed for a career in theatre or nearly any field. As students progress through the program, faculty will work collaboratively with them to prepare for graduate study, entrance into the world of theatre, and/or toward any career goals that could be enhanced with theatre training.

On stage, students are provided the opportunity to be actively involved in high caliber productions and work directly with professional directors, designers, and other theatre artists. The theatre department explores a variety of themes and styles in these productions while maintaining a very high standard for everyone involved. Each year students and faculty also participate in many other activities, such as student productions, collaborations with other programs, and special events on campus. A student's activity level is only limited by their desire to be involved.

Many theatre graduates pursue careers in theatre, television, and film. Others find that with the combination of theatre studies and a solid liberal arts education, they are prepared to pursue careers in a variety of fields including law, teaching, business, performance coaching, sales, and marketing. The theatre major and minor are also designed to be easily combined with many other majors to meet the needs of many different career goals. Commonly, theatre is combined with business, communication, English, history, and music.

Theatre students must be actively involved in productions presented by the department. Each theatre major must substantially participate in at least four main stage productions (and at least one of those must include backstage work). Quality of student participation will be gauged by theatre faculty and will be assessed as part of annual reviews. Students are also required to complete an annual review. For transfer students, the first review must be completed upon entry into the program. In these reviews, the students present audition monologues or portfolios. Faculty members work with the students to improve their presentation skills and discuss their progress in the program and their future goals. Students are also given the opportunity to provide feedback about the program. In their final semester, all majors complete an exit review as a final step toward future employment.
